Dale®

Medical Products, Inc.

PRODUCT CATALOG

Never accept less than the best

At Dale, we're always focused on making better products.

With top-quality materials, innovative designs, and rigorous standards, our products perform at the highest standard to save nursing time, improve patient safety and comfort, and increase operational efficiency. All Dale products are manufactured without the use of natural rubber latex or DEHP.

Our services, including professional development and nursing education, help our clinical partners become always better in their own practices.

A History of Becoming Better

Dale Medical Products has been helping patients, practitioners and institutions secure optimal care and real economic value for generations. Since our founding in 1961, we've earned global recognition for our industry-leading performance-driven products and customer support. Dale Medical Products is an ISO 13485:2016 registered company.

Together, we hope to create a healthcare experience that's always better for everyone involved.

Always better for:

- Enteral Care
- IV & Vascular Solutions
- Respiratory Care
- Post Surgical
- Urology

Dale ACE (Access Controller for Enteral) Connectors®

The Dale ACE Connector (Access Controller for Enteral) is the simple and secure way to connect tubes for in-line feeding, flushing, irrigation, sampling gastric residuals and medication delivery.

- 100% closed system reduces the risk of potentially infectious splash back and cross-contamination.
- On-off handle controls fluid flow—turn on for feeding or off for tube irrigation, medication administration, gastric residuals, or patient ambulation.

- Fully integrated auto syringe seal med port eliminates splash back and can be used for medication delivery, irrigation, and sampling of gastric residuals. ENFit compatible ACE accepts most ENFit size syringes from .5 mL to 60 mL. The Legacy ACE will accept most 50 and 60 mL catheter tipped syringes for the same functions.
- Connects to most NG, feeding tubes, Salem Sumps, Suction tubes, and other enteral tubes, including most PEG, PEJ, and G-J tubes.

Product Number	Description	Quantity
475	Fits most non-ENFit tubes	50/box
485	Fits most ENFit NG enteral feeding tubes and ENFit syringes	50/box

Not available for purchase in Canada

Dale Nasogastric Tube Holder

The Dale Nasogastric Tube Holder is ideal for holding most nasogastric tubes, including nasoenteric, Salem Sump®, and Levin stomach tubes.

- Skin-friendly adhesive stays in place for up to 3 days, yet is easy to remove.
- Breathable material.
- Unique dual interlocking tabs spiral around the nasogastric tube for superior tube security.
- Non-adherent plastic tips on both tabs make tube removal safer and easier, especially when wearing gloves.
- Single patient use only.
- No scissors required.
- May also be used to secure most manometry catheter and pH impedance probes used for esophageal manometry and pH impedance testing.

Product Number	Description	Quantity
160	Large / Adult	50/box
161	Small / Young Adult / Pediatric / Geriatric	50/box

Dale Hold-n-Place® Catheter Securement

Dale Hold-n-Place Securement Devices are designed to be used in a wide variety of applications including IV, arterial, mid-line, CVC, PICC, and arterial sheath securement using skin-friendly adhesives and familiar application techniques. The Dale Catheter Securement helps prevent pistoning, accidental dislodgement and needlestick injuries all while enhancing patient comfort.

- Superior horizontal and vertical securement.
- Maintains optimal catheter insertion angle.
- Simple to apply, inspect and adjust.
- Versatile designs for every venous access catheter securement application.
- No skin prep needed prior to use and no alcohol needed for removal.
- Sterilized for use most anywhere on the body.
- Meets the Infusion Nurses Society guidelines for an adhesive securement device.

850	IV, Arterial and Mid-line Catheter Securement	50/box
852	CVC, PICC and Arterial Sheath Securement Device	50/box
853	CVC, PICC and Arterial Sheath Securement Kit w/ Transparent Dressing	50/box
854*	CVC, PICC and Arterial Sheath Securement Kit w/ PrevahexCHX™ Transparent Film Dressing	50/box

*Not available for sale outside the USA.

Dale IV-ARMOR®

Dale's IV-ARMOR minimizes downstream occlusions while enabling patient movement. The flexible protective overlay is the ideal way to maximize IV patency while protecting the site from patient tampering.

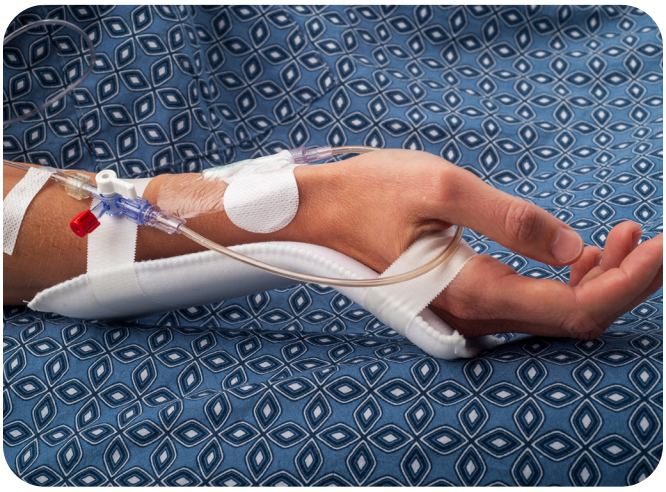
- Reduces the introduction of infection associated with IV reinsertion.
- Reduces downstream occlusion alarms.
- Reduces risk of catheter kinking in a bend such as a wrist or elbow.
- Reduces risk of catheter movement in an area of bony prominence, such as back of hand or forearm.
- Skin friendly adhesive.

Product Number	Description	Quantity
675	One size fits most	10/box

Dale Bendable ArmBoard

The Dale Bendable ArmBoard allows the patient's hand and wrist to maintain their natural position while securely and comfortably preventing catheter movement.

- Bendable inner core can be custom shaped to desired position – Enables clinician to hyperextend patient's wrist for pronounced radial artery exposure, trouble-free insertion and line integrity.
- Adjustable hook & loop closures provide comfortable fit.
- Soft, plush lining enhances patient comfort.
- Four convenient sizes, both with and without straps.
- MR Conditional.



ArmBoard without straps

ArmBoard with straps

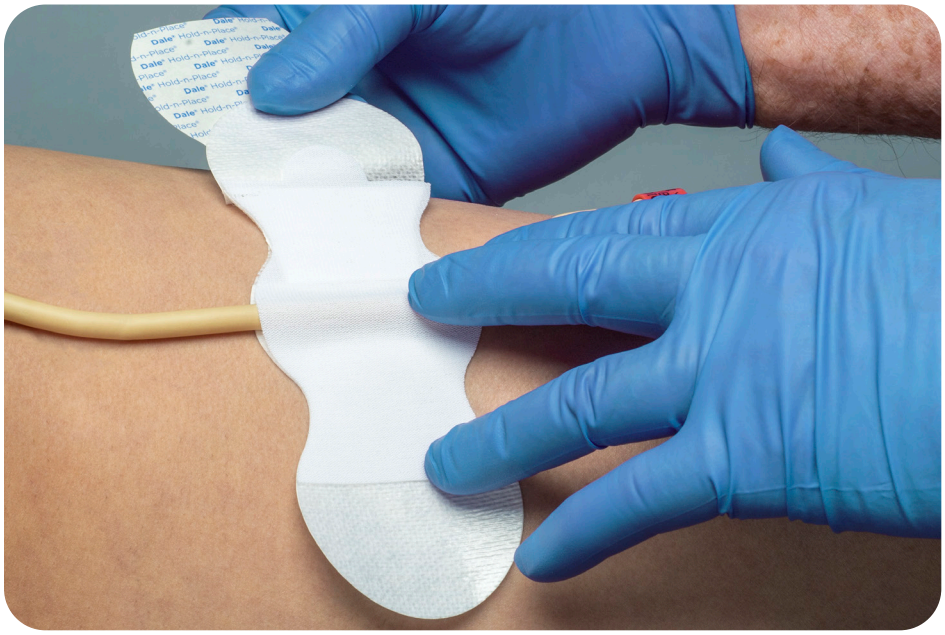
Dale Hold-n-Place® General Purpose Securement Device

Dale Hold-n-Place General Purpose Securement Devices are designed to be used in a wide variety of applications including securing IV lines, surgical drains, bedside monitoring equipment, latex Foley catheters, feeding tubes, G-Tubes, temporary stimulator leads, oxygen sensors and many more. Keeping tubes, lines or catheters safe and secure is vital to you and your patient. Dale Hold-n-Place General Purpose Securement Devices are designed to keep the tube, line or catheter positioned properly and improve patient comfort.

- Secures catheters and lines using repositionable hook and loop closure.
- Soft, comfortable fabric with no hard plastics for improved patient comfort.
- No skin prep needed prior to use and no alcohol needed for removal.
- Simple to apply, inspect, and adjust.
- Sterilized for use most anywhere on the body.

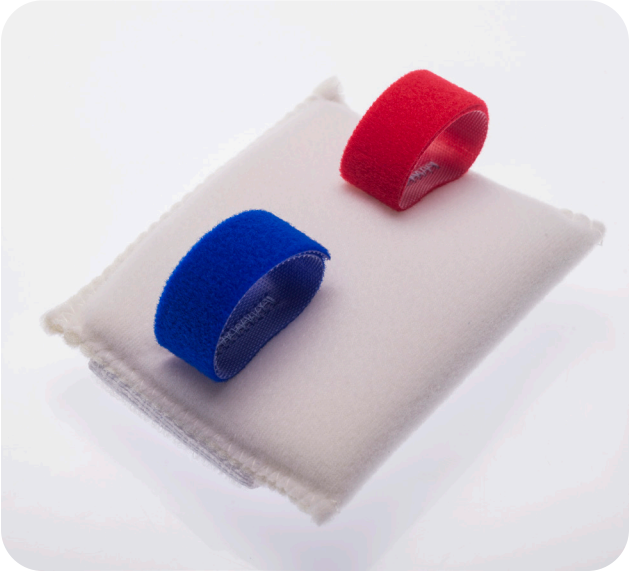


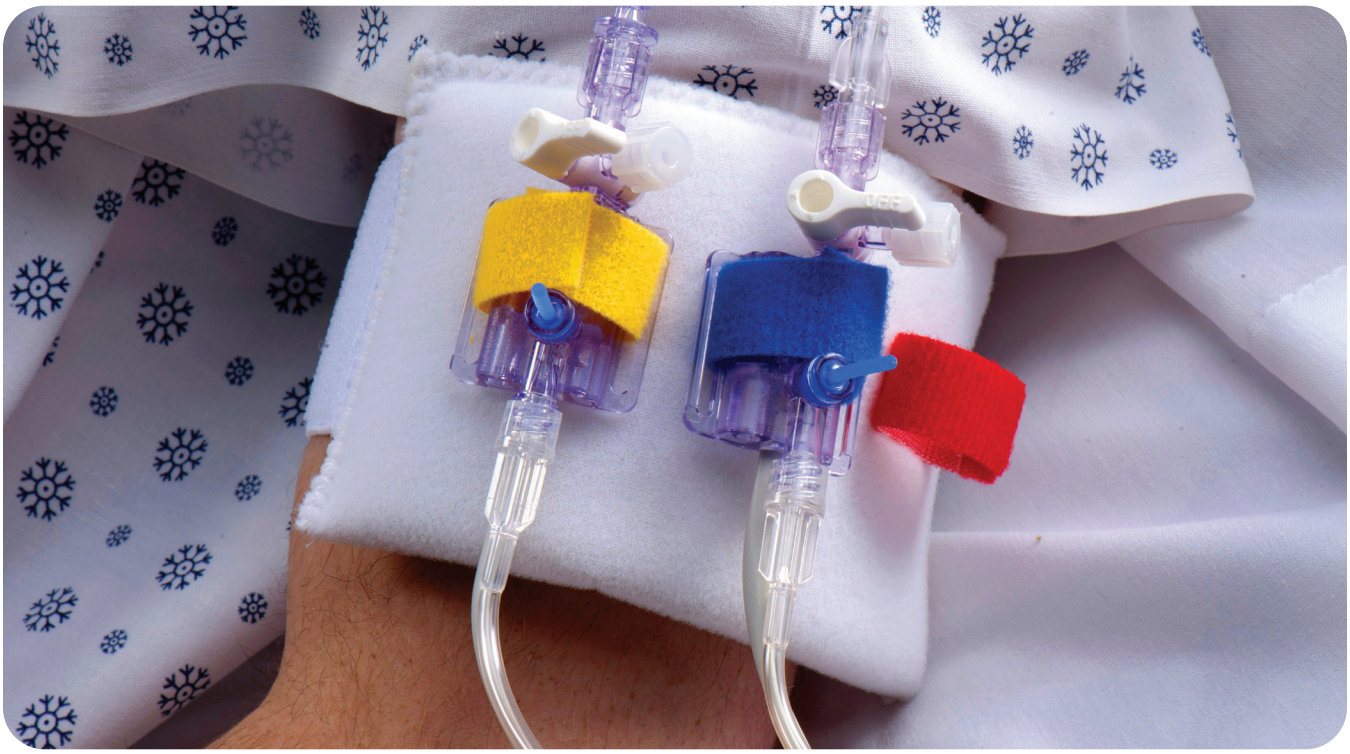
Product Number	Description	Quantity
950	Small, Fits 1.5mm-4.5mm Tubing	50/box
951	Medium, Fits 3mm-8mm Tubing	50/box
952	Large, Fits 6mm-13mm Tubing	50/box

Dale Transducer Holder

The Dale Transducer Holders offers a level and secure platform for up to three transducers. Stability ensures correct waveform readings and corresponding numerical display.

- Platform conforms to patient's arm.
- Soft, comfortable material with adjustable hook and loop closures.
- Secures up to three transducers.
- Holding tabs reduce the time associated with manual re-leveling and taping individual transducers to the patient's chest, arm, or mounting on the bedside pole.
- Increases organization and security of hemodynamic catheters during patient transportation and ambulation.





Product Number	Description	Quantity
620	Fits up to 3 standard size transducers, one size fits most	10/box
622	Fits up to 2 large size transducers, one size fits most	10/box

Dale Stabilock Endotracheal Tube Holder

The Dale Stabilock Endotracheal Tube Holder provides a fast and easy way to secure endotracheal tubes and help prevent accidental extubation when used in supine or prone position.

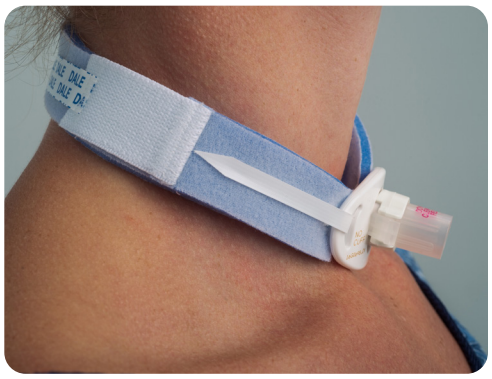
- Cushioned neck band is soft and comfortable on the face and neck.
- Skin-friendly adhesive can be left in place up to 3 days.
- Tubing channel is made of lightweight, flexible material to securely hold the endotracheal tube.
- Hook & loop closures provide a secure fit.
- Easy repositioning reduces risk of skin and lip ulcerations.
- Easy access for oral care.

Product Number	Description	Quantity
270	Fits endotracheal tube sizes 7.0mm-10.0mm	10/box

Dale Tracheostomy Tube Holders

The Dale Tracheostomy Tube Holder is designed to provide secure positioning and minimize movement of the tracheostomy tube. Unnecessary movement of the trach tube can result in accidental dislodgement or displacement of the tube, tracheal fistula, tracheal stenosis, or airway granuloma.

- Eliminates the frustrations associated with twill ties and other holders while minimizing secondary complications.
- Moisture wicking neck band lining reduces the risk of skin breakdown.
- Fastener tabs quickly and securely attach to the tracheostomy tube holder.



Product Number	Description	Quantity
240	240 Blue® 2.54cm(1") wide neckband, fits up to 49.5cm(19.5") neck	10/box
241	241 PediPrints® 2.54cm(1")wide neckband, fits up to 46cm(18") neck	10/box
242	242 PediPrints® 1.91cm(0.75") wide neckband, fits up to 23cm(9") neck	10/box
244	244 Blue® for bariatric patients 3.81cm(1.5") wide neckband, fits up to 71cm(28") neck	10/box

Post Surgical

Dale Post-Surgical Bra

The Dale Post-Surgical Bra provides the support and compression patients need immediately following breast surgery. Soft, breathable fabric stretches to accommodate edema without binding or irritating sensitive tissue.

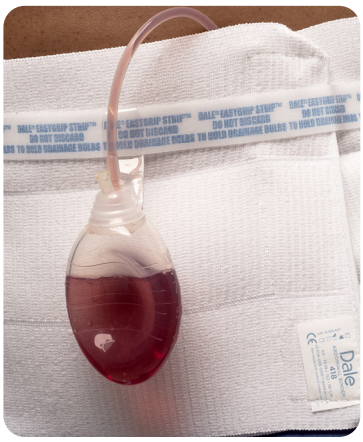
- Front hook & loop closure facilitates inspection of the surgical site and dressing changes.
- Detachable shoulder straps allow for ease of application and improved comfort
- Can be worn alone or can be used to hold surgical dressings in place without tape.
- Indicated for use after a wide range of surgical procedures: Reduction, reconstruction, lift, augmentation, mastectomy, lumpectomy, biopsy, and fine needle aspiration.
- Ideal for use during radiation treatment.

Product Number	Description	Quantity
702	Medium, fits B-D 86cm-92cm(34”-36”)	1/box
703	Large, fits B-D 92cm-97cm(36”-38”)	1/box
704	X-Large, fits B-D 97cm-112cm(38”-44”)	1/box
705	XX-Large, fits C-E 117cm-137cm(46”-54”)	1/box
706	XXX-Large, fits E-I 137cm-152cm(54”-60”)	1/box

Dale Abdominal Binder with EasyGrip™ Strip

Dale Abdominal Binders are the only binders clinically shown to expedite the return of pulmonary function after open abdominal surgery while encouraging patients to ambulate sooner. Available in sizes up to 94" long and in widths up to 15".

- Exclusive stretch material provides full, all-around compression.
- Hook & loop closure secures at any point along the binder circumference.
- Promotes mobility and lessens the chance of sedentary complications.
- Available in bariatric sizes.
- EasyGrip™ Strip holds up to four 100cc drainage bulbs for easier monitoring and changing.



Product Number	Description	Quantity
525	6" wide, stretches to fit 72cm-127cm(28"-50")	1/box
410	9" wide, stretches to fit 76cm-114cm(30"-45")	1/box
411	9" wide, stretches to fit 117cm-157cm(46"-62")	1/box
418	9" wide, stretches to fit 152cm-191cm(60"-75")	1/box
810	12" wide, stretches to fit 76cm-114cm(30"-45")	1/box
811	12" wide, stretches to fit 117cm-157cm(46"-62")	1/box
818	12" wide, stretches to fit 152cm-191cm(60"-75")	1/box
820	12" wide, stretches to fit 183cm-239cm(72"-94")	1/box
920	15" wide, stretches to fit 183cm-239cm(72"-94")	1/box

Post Surgical

Dale Nasal Dressing Holder

The Dale Nasal Dressing Holder replaces adhesive tape to hold nasal dressings in place following rhinoplasty, septoplasty, sinus surgery, facial trauma and nose bleeds. Clear plastic dressing holder is secured by ear loops. Hook and loop fastener tabs can be adjusted to fit any patient comfortably.

- Soft moisture repellent material adds to comfort.
- Plastic center section holds dressings in place without absorbing secretions.
- Easy to remove and replace, making dressing changes simple and painless.

Product Number	Description	Quantity
600	One size fits most	10/box

Dale Hold-n-Place® Foley Catheter Holders

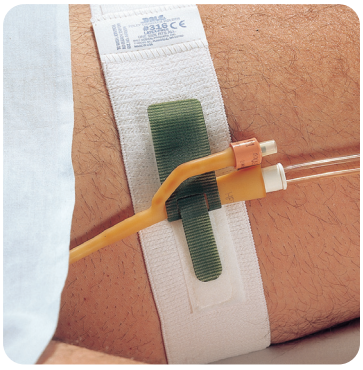
Dale Hold-n-Place Foley Catheter Holders stabilize the indwelling catheter, reducing the likelihood of traumatic removal, without restricting patient's movement or irritating the skin. All Dale Hold-n-Place Foley Catheter Holders feature unique locking systems that securely anchor the catheter in place, reducing the risk of urethral erosion, bladder spasms and trauma.

- The leg band, made entirely of soft stretch material, distributes compression evenly around the thigh to minimize circumferential pressure. Ideal for long-term catheterization.
- The adhesive patch, with a skin-friendly adhesive base, is ideal for short-term catheterized patients.
- The locking devices speed up application and simplify adjustment.
- The holders can be used with equal effectiveness on all Foley catheters including Teflon, silver and silicone coated catheters.
- Leg band/waist band ideal for bariatric patients.

Hold-n-Place Adhesive Patch

Hold-n-Place Waist Band

Hold-n-Place Leg Band



Product Number	Description	Quantity
316	Leg Band, fits up to 76cm(30")	10/box
330	Leg/Waist Band, fits up to 142cm(56")	10/box
150	Adhesive Patch, One size fits most	50/box

Partnering with Dale® is Always Better

Dale is committed to supporting clinicians as they strive to provide optimal care for their patients while bettering themselves through continuing education and lifelong learning.

Personal Service

Through our field service representatives and telephone support, Dale provides service that is always better. Because we control our own manufacturing, we've never had a backorder. Most orders ship in 24 hours. Questions and concerns are answered efficiently and completely. Always.

Professional Growth

Dale offers programs and services to enhance your professional growth and support you providing the highest level of patient care.

- CEU accredited seminars.
- In-service training available by Dale Representatives.
- Sponsorship & support of regional and national associations and professional societies.
- In-service training videos available at www.dalemed.com

Nursing Education

Dale Medical Products is the proud sponsor of Perspectives in Nursing, a source of free, quality CEUs for nurses for the past 15 years. Perspectives is committed to providing timely and relevant information on postoperative recovery strategies.

- Articles & webinars that focus on the continuum of care from surgery and critical care to transitional care and home.
- Perspectives is highly regarded and well recognized for delivering pertinent and pragmatic information that helps nursing and respiratory therapy maximize outcomes and patient satisfaction.

An Innovation Partnership

As in any good partnership, we want to hear what you have to say. If you do have thoughts on making a patient care product better we'd like to hear about it.

If you have an idea for a new product, we'd like to hear about that, too. If anything, we can help you better understand the process of what to do next to protect your idea.

We're also proud to partner with you in support of breast cancer research. For every badge scanned at Dale conference booths, we donate $1 to breast cancer research. Together we've raised over $70,000.
